11 October 2022

A Brief Overview of Cambodian Agriculture

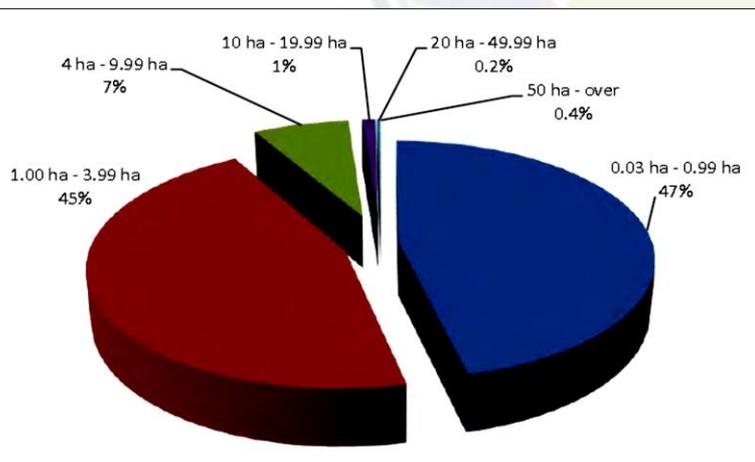

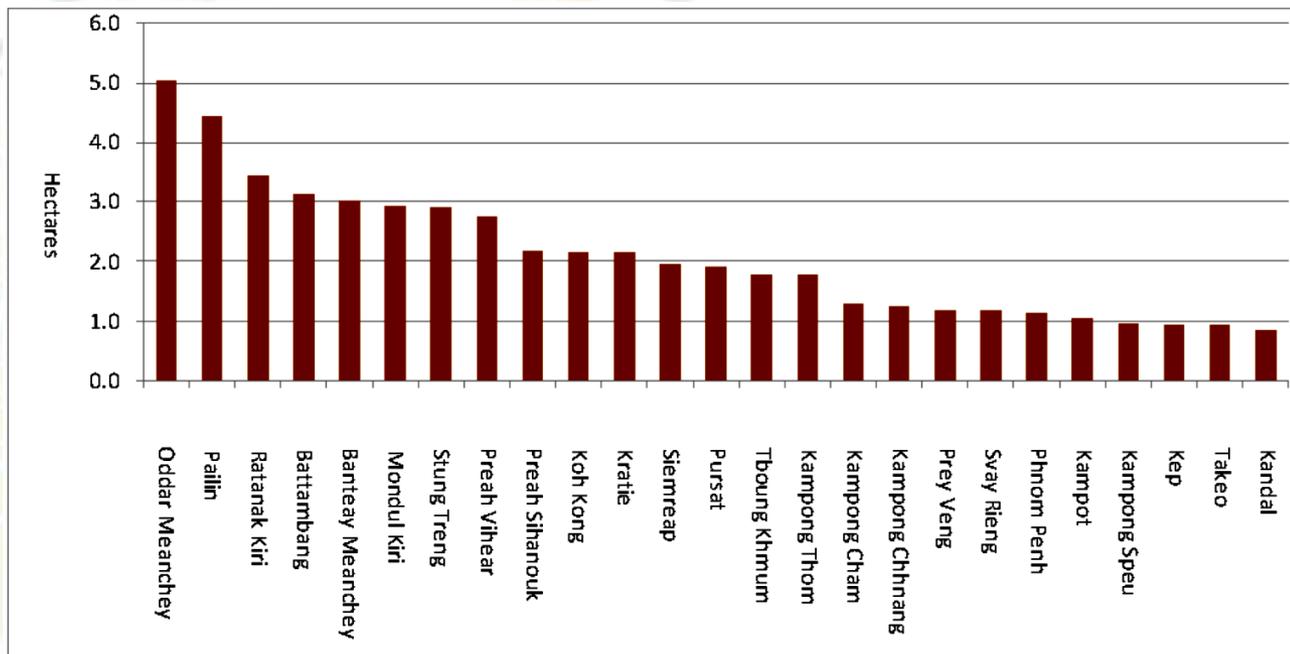

- ❖ Agriculture accounts for 24% of Cambodian economy (MoP, 2021).
- ❖ Employs 36% of workforce (MoP, 2020).
- ❖ About 80% of rural households rely on agriculture.
- ❖ Arable land: 5.5 million ha (Rice 3.6 million ha).

Agricultural Land Holdings

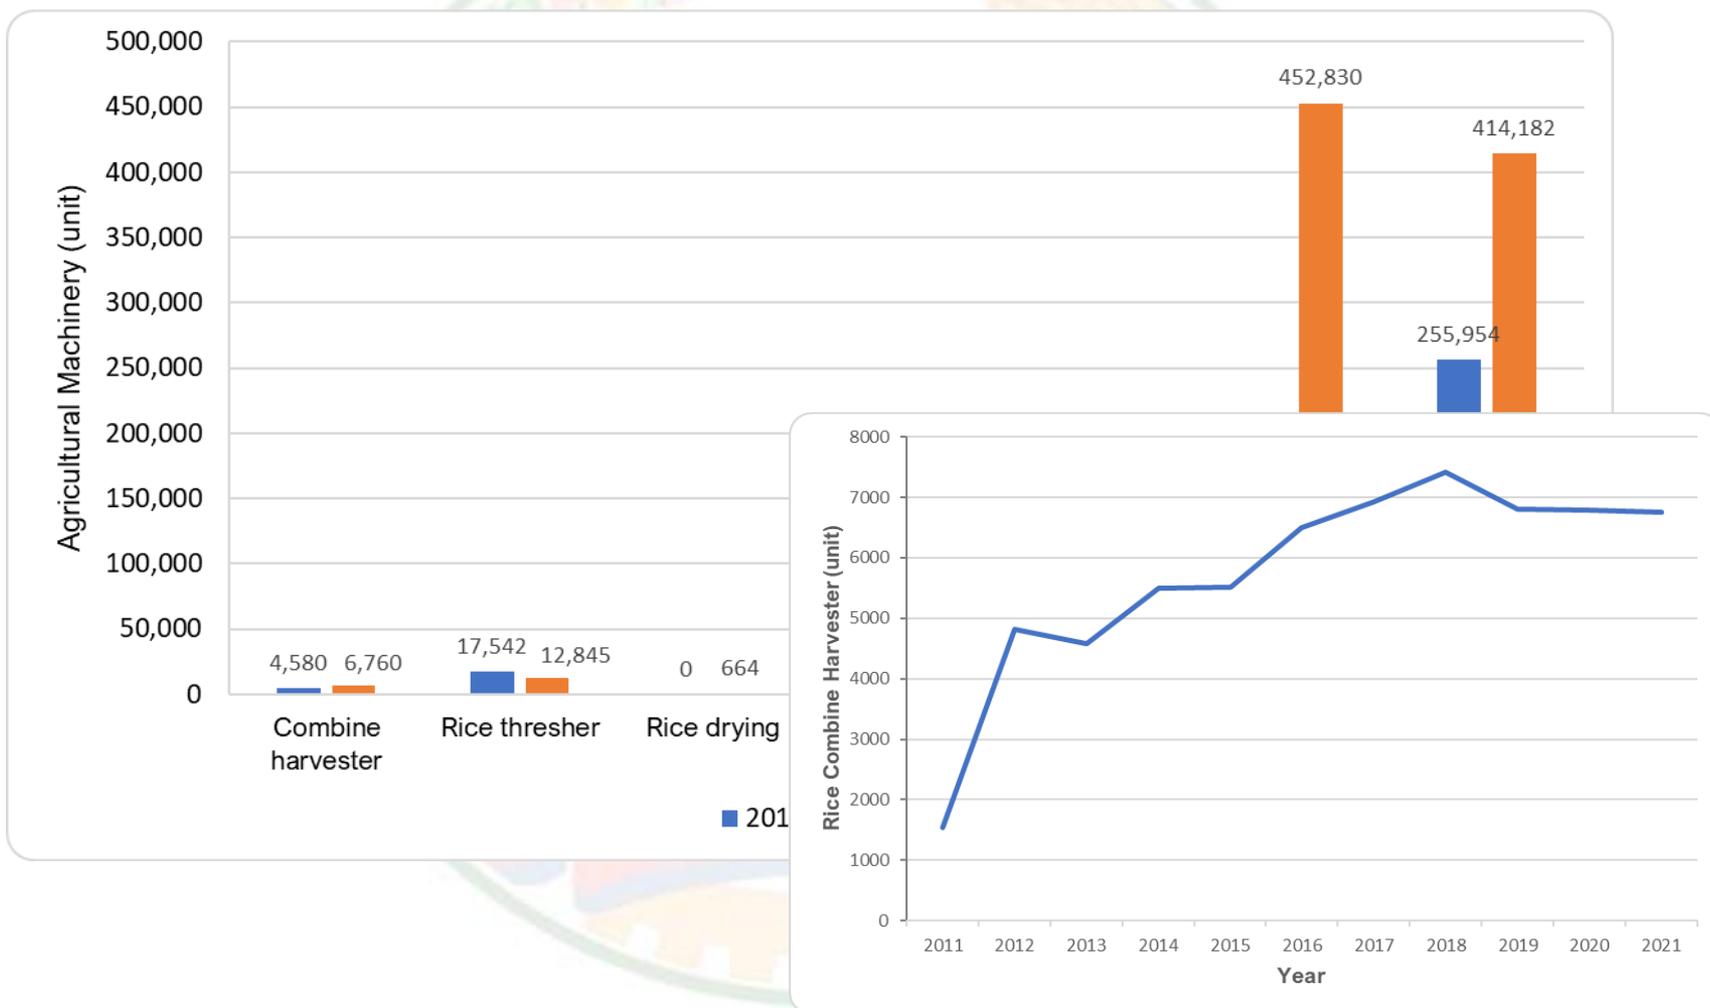

Average land area of holding by province (CAC 2013)

Percentage of holdings with separate lands by size of holding (CAC 2013)

Statistics on Machinery

Testing Needs

- ❖ Combine harvester for paddy rice less than 100 hp.
- ❖ Minimizing losses:
 - ❖ *Reaping mechanism*
 - ❖ *Threshing mechanism*
- ❖ Suitability to operate in wet conditions due to climate change/unseasonal rains.
- ❖ Whole plant feeding type: optional mounted straw management/chopping mechanism.

Thank you
