

Agricultural Mechanization Training Center

Kamanie Ranatunga,
Director General of Agriculture,
Department of Agriculture,
Sri Lanka

Farm Mechanization Training Centre

- The Farm Mechanization Training Centre (FMTC) at Anuradhapura set up under the Department of Agriculture, was established in 1971 with the collaboration of the government of Federal Republic of Germany.
- The training programs mainly focus on operation and maintenance of farm machinery, repairs of farm machinery and designing of micro irrigation systems.

Vision

“To become the center of excellence in training on Farm Mechanization in Sri Lanka.”

Mission

“Creating skillful farming community with appropriate Mechanization for sustainable development in Agriculture.”
